

Starting from 8th May 2022

New arrangements for quarantine hotels

Hotels for medical observation

General designated medical observation hotel

General optional medical observation hotel

Special designated medical observation hotel

Special optional medical observation hotel

General designated medical observation hotel

General designated medical observation hotels are limited to Macao residents (including their accompanying relatives) or non-resident workers arriving from Hong Kong. Macao residents who qualify for certain conditions can apply for an exemption.

General optional medical observation hotel

General optional medical observation hotels are available to arrivals from Hong Kong at their own cost.

Special designated medical observation hotel

Special designated medical observation hotels are available to arrivals from foreign countries or Macao residents and non-resident workers from the Taiwan region. Macao residents who qualify for certain conditions can apply for an exemption.

Special optional medical observation hotel

Special optional medical observation hotels are available to arrivals from foreign countries or the Taiwan region, at their own cost.

Second-highest risk individuals

In accordance with the guidelines by the Health Bureau, "Special Medical Observation Hotel" only entertains second-highest risk individuals to minimise the risk of COVID-19 spreading in medical observation hotels. At present, arrivals flying in from foreign countries and the Taiwan region are classified as second-highest risk individuals.

***Reservation must be made at the respective medical observation hotels by email.**
